All schools are going to be tested on the same thing and creativity is gone. Be aware that Student Council is not a club. Second, no matter what you are you are not members you are representatives. VI. Activity liaison Mike Roland

Before your student government talks to the Student Advisors to the Board about a problem specific to your school, they must try to fix their problem first before they seek help.

People need to get more involved with the county committees to have a

voice in the changes that these committees propose.

Its important to pay attention to the minutes because once they are accepted, either by reading and corrections or by a motion to forego the reading of the minutes, they cannot be changed.

The issue of silver cords is still up in the air. The discussion at the county level is that however it is resolved it must be the same for all high schools

District 6 meeting is this Saturday.

Please note that Mr. Roland announced that he trashed all of the applications to be a chair for a BCASC committee because the instructions were to send them to the Vice-president school. He said he did this to emphasize the importance of following instructions.
